

# EV Charging Infrastructure Strike Force Accomplishments

Strike Force November 2020 - November 2022

# Partnership & Collaboration

- The EV Strike Force created a public/private partnership in collaboration with Policy Makers, Private Sector Stakeholders, Environmental NGOs, and Equity Groups
- As a partnership we jointly adopted Terms of Reference for a 2-year joint effort. And we completed our mission in 2 years within budget!

# Established Targets

- The EV Strike Force established agreed-upon targets for the advancement of equitable, accessible, and affordable EV charging infrastructure in conjunction with the CEC's 2127 report and private sector assessments

# Largest Investment in Infrastructure Ever

- The EV Strike Force organized and expanded a diverse coalition in support of California's state investment in charging infrastructure
- Originally intended to secure reauthorization of AB8, this diverse group of stakeholders helped secure the largest ever and first ever funding for ZEVs and infrastructure over 5 years

# Completed Reports

## **Completed a Jobs Assessment with a focus on equitable jobs transition**

This is foundational work that helped inform the equity discussion and outline potential metrics for equitable jobs opportunities as the state transitions to a fully electric on-road fleet

## **Completed an Equity Resource Document**

The Equity Workgroup came together to better define the meaning of equity in the context of EV charging infrastructure and established recommended metrics for entities to track progress towards an equitable transitions to ZEVs and charging infrastructure

## Questions & Reflections

How has your engagement in the EV Strike Force influenced your work?

How will the experience of engaging with the EV Strike Force continue to influence your work and approach to collaboration?
